\*Available from Brenntag

**Characteristics**

- / This Velvet Lipliner formulation includes Brenntag's own brand of CosVivet waxes.
- / It includes the new range of KenaPure pigments.
- / CosVivet Berry wax is an outstanding pay-off enhancer in lipsticks and lipliners.

**Procedure**

1. Melt pigments with Castor Oil at 90 - 95°C and then add Jojoba Golden Oil.
2. Stir until a homogeneous mixture is obtained.
3. Weigh phase B and melt at 90 - 95°C. Add phase B to A.
4. Finally pour the melted mixture into the mould.

**Stability**

- / Stable over 3 months at 23°C, 40°C and 4°C.
