Blending Solutions

Brenntag UK & Ireland's Chemical Blending Solutions group offers a range of blending options to a wide selection of industry sectors.

Our purpose-built facilities across multiple locations in the UK & Ireland offer a variety of blending options from simple powder/liquid, liquid/liquid blends, through to more complex multi-component speciality products and toll blending.

QUALITY AND SAFETY CONSCIOUS TECHNICAL SPECIALISTS

Operating to BS EN ISO 9001:2008 and CBA Responsible Care, we set and maintain the highest standards in Quality and Safety. Our laboratory facilities offer QC testing services and our knowledgeable technical team are available to offer valuable input into process development.

EXPERTS IN BESPOKE SOLUTIONS AND LOGISTICS

Using both our experience of supply chain logistics, and our problem-solving approach, we create your solutions. Flexible packaging options include bulk tankers down to small packs, with fully integrated returnable packaging solutions available via the Brenntag distribution network.
