INNOVATION IS OUR TRADITION

CATIONIC CARNAUBA MILK

Cationic Carnauba Wax Dispersion (Wax#871B)

Cationic Carnauba Milk is an innovative, highly stable dispersion of about 30% Solids in water. This creates many new global application advantages and possibilities since processing requires no more energy than pouring, measuring, and mixing.

LABORATORY TESTS	SPECIFICATIONS
% SOLIDS	27.0 - 30.0
pH	2.0 - 7.0
SPECIFIC GRAVITY	0.970 - 1.1
PARTICLE SIZE	<500 nm
APPEARANCE	TMS, Opaque Liquid
ODOR	TMS, Characteristic
COLOR	TMS, Off White to Tan
OTHER: MICROBIOLOGY	
BACTERIA & FUNGI	<100 organisms/g
PATHOGENS	Free

Formulating Advantages:

Ease of Handling
Versatility of Formulation/Cold Formulating
Film Former/Barrier
High Stability
Opacifying Aqueous Products & Gels
100% Water Dispersible
Multi-Functional/Energy Savings

USES:

Hair Care / Skin / Color
Leather & Shoe Polishes
Furniture
Automotive
Aerosol products
Textile
Wood Coatings

Regulatory:

INCI Name: Water, Carnauba Wax, Behentrimonium Chloride, Beheneth-5, Lecithin, Caprylyl Glycol, Phenoxyethanol, Hexylene Glycol
CAS#: 7732-18-5, 8015-86-9, 17301-53-0, 136207-49-3, 8002-43-5, 1117-86-8, 122-99-6 & 107-41-5
All Components are TSCA Listed

Phone: 860-945-3333 Fax: 860-945-0330
