

L-Cysteine hydrochloride anhydrous (for food use)

FOOD GRADE

Product description

Product description

Structural formula:

Molecular weight: 157,62
 Empirical formula: C₃H₈ClNO₂S
 CAS No.: 52-89-1

Description: white powder or colourless crystals. L-Cysteine is one of the 20 natural amino acids and, besides methionine, the only one which contains sulfur. WACKER has developed a new production method for this amino acid via fermentation from non-animal and non-human raw materials.

Storage

L-Cysteine hydrochloride anhydrous (for food use) has a shelf life of at least 24 months when stored in unbroken original packaging in dry storage areas. The best use before date of each batch is shown on the product label.

Storage beyond the date specified on the label does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Packaging

Units of 25 kg

Registration (selected countries / regions)

Origin: vegetarian fermentation
 Kosher certified
 Halal certified

Listed on or in accordance with the following inventories:

AICS - Australia
 DSL - Canada
 ECL - Korea
 EINECS - Europe
 PICCS - Philippines
 TSCA - USA
 IECSC - China

Safety notes

Advice for storage of incompatible materials: Comply with national regulations on the mixed storage of food additives. Comprehensive instructions are given in the corresponding Material Safety Data Sheets. They are available on request from WACKER subsidiaries or may be printed via WACKER web site <http://www.wacker.com>.

Product data

Specification data	Inspection Method	Value
Identification	PH. EUR. (2.2.24)	positive
Appearance of solution	PH. EUR. (2.2.1)	colorless, clear liquid
Assay	specific method	98,5 - 101,0 %
Residue on ignition	PH. EUR. (2.4.14)	max. 0,1 %
Loss on drying	specific method	max. 2,0 %
Ammonium	PH. EUR. (2.4.1/B)	max. 200 ppm
Heavy metals	PH. EUR. (2.4.8/A)	max. 10 ppm
Lead	specific method	max. 5 ppm
Arsenic	PH. EUR. (2.4.2/A)	max. 1 ppm
Specific rotation	PH. EUR. (2.2.7)	[α] _D 5,7 - 6,8 °

Typical general characteristics	Inspection Method	Value
Particle size		10% > 160*10 ⁻⁶ m (100 Mesh)
Solubility in water at 20 °C		> 500 g/l

Figures below "Typical general characteristics" are intended as a guide and should not be used in preparing specifications.

The data presented in this leaflet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this leaflet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies' raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties' rights and, if necessary, clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the products for a particular purpose.

The management system has been certified according to DIN EN ISO 9001 and DIN EN ISO 14001
