

Offering reliable & sustainable solutions

TECHNICAL DATA SHEET

Product code: ACH SN-TG

Equivalent to: Surfynol® TG

Product components: Acetylenic diol and alkylarylalkoxylate in ethylene glycol.

Description and Applications:

ACH SN-TG is a nonionic surfactant blend used as a grind aid or wetting agent in pigment dispersions, inks, adhesives, coatings, and other products. This product is low-foaming.

Typical Physical Properties:

Appearance	Pourable light yellow liquid
Color (Pt-Co)	100 max
Acetylenic diol	60 wt% max
Ethylene glycol	15 wt%
Alkylarylalkoxylate	60 wt% max
Density (25 °C), g/ml	1.01
HLB	9 to 10

Suggested Usage: 0.2% to 5.0% of total formulation.

Packaging: 25 kg plastic drum, 180 kg iron drum.

Storage: Store this product in cool, dry and ventilated place, away from fire source, oxidants, sunshine and rain.

Shelf-life: 4 years from the date of manufacture.
