

STARLEAF™, WHERE THE MOST SUGAR-LIKE TASTE STARTS WITH THE VERY BEST LEAF

- StarLeaf™ is a non-GMO proprietary stevia leaf variety which allows for the most sugar-like product formulations.
- 20x more sugar-like content compared to standard stevia leaf varieties.
- This variety allows us to scale stevia for global food and beverage companies.

StarLeaf™ Stevia creates stevia ingredients with the most sugar-like taste

- These ingredients are part of our Zeta Family and maximize the most sugar-like steviol glycosides from the leaf.
 - These products provide superior ratings in expert sensory taste tests compared to Reb A and provide parity to sugar.
- These ingredients make stevia easy to use
- across a wide range of formulations and sugar reductions.
