PEACH KERNEL OIL

PRODUCT DATA SHEET

PEACH KERNEL OIL is a Refined Vegetable Oil that due to its intrinsic properties provides a multi functional vegetable oil. It has a balanced fatty acid composition between saturated and unsaturated chains. The physical characteristics have been improved resulting in minimal colour level and a virtually odourless vegetable oil.

PEACH KERNEL OIL applies easily, offers deep penetration and significant moisture retention together with high nourishing properties.

PEACH KERNEL OIL is designed for all kinds of cosmetic products from rinse-off to leave-on, showing a great compatibility with all cosmetic ingredients.

PEACH KERNEL OIL

APPLICATION

PEACH KERNEL OIL may be applied directly to the skin and hair. It may also be easily incorporated as an active ingredient or an excellent carrier in skin and hair care products. Recommended dosage is between 3 to 8%.

PEACH KERNEL OIL can also be used directly as massage oil.

OIL STABILITY INDEX (OSI)

The Oil Stability Index (OSI) was determined using a Rancimat instrument. The rapidity of oxidation of an oil depends on the degree of unsaturation, the presence of antioxidants, and prior storage conditions. In the OSI analysis, the rate of oxidation is slow until resistance to oxidation is overcome. This time is known as the oxidation induction period and it is a tool to determine the useful life of the oil.
