

## Pressed Powder Ingredients

### Fillers:

Imercare™ Sheersilk  
IMP 1823

Imercare™ Velluto  
IMP 1886

ST1925  
IMP 1889

IMP 1820  
Mica Snow

### Liquid Binder:

Kester K-24  
Ceraphyl™ 847

BELSIL® PDM 20  
Ceraphyl™ ODS

BELSIL® DM 5  
Jolee 7750

BELSIL® DM 10

### Dry Binders:

Magnesium Stearate

Zinc Stearate

### Preservatives:

LiquaPar™ Oil

Optiphen™

### Functionality:

Sumicos™ & Prestige® Effect Pigments - Visual Enhancement

Titanium Dioxide - Opacifier

PMMA & SoftSpheres - Soft Focus and Feel Modifier

Polytrap® - Sebum Control, Minimizes Creasing, Delivery System

Vitapherole® - Natural Vitamins

Silk Powder - Feel Modifier

Rice Starch - Texture Modifier

Surface Treated Powders - Increases Wearability, Modifies Texture, Improves Slip

Luxomatte™ MT128 - Mattifying Agent

# Peach Berry Eye Shadow 03-160

<b>Phase A</b>		
Talc (and) Dimethicone ( <b>ST1925</b> ).....	20.50	BSI
Synthetic Fluorophlogopite ( <b>Mica Snow 600</b> ).....	18.00	BSI
Titanium Dioxide ( <b>325 Titanium Dioxide</b> ) .....	2.00	BSI
Magnesium Stearate ( <b>Magnesium Stearate 910G</b> ) .....	5.00	BSI
Iron Oxides (Brown Iron Oxide 1156) .....	2.00	Color Techniques
Talc ( <b>ImerCare™ Velluto</b> ) .....	21.00	BSI - Imerys
<b>Phase B</b>		
Octyldodecyl Stearoyl Stearate ( <b>Ceraphyl™ 847</b> ).....	3.00	BSI - Ashland
Octyldodecyl Stearate ( <b>Ceraphyl™ ODS</b> ) .....	3.00	BSI - Ashland
Isopropylparaben (and) Isobutylparaben (and) Butylparaben ( <b>LiquaPar™ Oil</b> ) .....	0.50	BSI - Ashland
<b>Phase C</b>		
Mica (and) Titanium Dioxide (and) Iron Oxides ( <b>Prestige® Autumn Sky</b> ) .....	8.00	BSI - Sudarshan
Mica (and) Iron Oxides ( <b>Prestige® Super Soft Copper</b> ) .....	7.00	BSI - Sudarshan
Mica (and) Titanium Dioxide (and) Iron Oxides ( <b>Prestige® Pearly Almond</b> ) .....	10.00	BSI - Sudarshan

## About the Ingredients:

**ImerCare™ Velluto:** New, natural, high performance decontaminated talc engineered to obtain a high coverage in powder formulations. It is an ideal base for powder cosmetics as it imparts a silky, unctuous feel and a smooth satin finish.

**ST1925:** Treating talc with dimethicone adds many benefits to cosmetic and skin care products. The primary benefits are: high water repellency, soft feel and lubricity on skin, better adhesion, higher compressibility and spreadability.

**Mica Snow:** The high purity (low lead) of Synthetic Fluorophlogopite makes it especially desirable for lip and eye area applications. It has a soft, silky skin feel and enhances products by providing an elegant shimmery look and glossy luster.

**Ceraphyl™ 847 and Ceraphyl™ ODS:** Elegant feeling esters that when blended at a 1:1 ratio provide exceptional pigment dispersing and powder binding properties.

**Prestige® Effect Pigments:** Prestige® Pearly Almond is a new pearlescent pigment with a soft golden pink color that makes it ideal for creating light to medium skin tones. Prestige® Autumn Sky adds a brilliant beige-gold undertone. Prestige® Super Soft Copper adds subtle warm tones to color cosmetics and skin care products.
