

COATINGS & CONSTRUCTION UK & IRELAND

Product List

BRENNTAG COATINGS & CONSTRUCTION OFFERS A COMPREHENSIVE RANGE OF BOTH INDUSTRIAL AND SPECIALTY PRODUCTS FROM MARKET-LEADING SUPPLIERS.

KEY FACTS

- Access to an extensive network of European application laboratories for formulation support
- Industry expertise in the Coatings & Construction markets
- Technical advice and support
- Advice on legislation such as REACH through our Global Sourcing Organisation

Whether our customers are in the market for decorative or industrial paints, sealants, inks or powder coatings, ceramic tile adhesives, mortars or PU elastomers, Brenntag have worked hard to build a broad line-up of products which can cover any needs.

We work closely with our customers and listen to their needs in order to provide creative, tailor-made solutions. Our technical sales personnel work in close collaboration with their European colleagues to provide formulation guidance through our extensive network of specialist European application laboratories. Moreover, we can offer extensive support to our customers through keeping ahead of emerging developments in the market as well as regulations such as REACH and the Biocidal Products Regulation.

Please see overleaf for a representation of our products and application areas.
